

Minutes

Board of Directors Meeting
Social Services Technology Solutions

Date: Monday, 26 January 2026

Time: 13:00 PM

Location: Zoom Conference Call

Present: Ray Manning, President
Ruby Guillen, Vice President
Joseph Powers, Secretary
Lisa Powers, Board member

Absent: Albert Heng, Treasurer

- I **Call to order:** at 13:00 PM by presiding officer Ray Manning.
- II **Quorum:** three of five Board members present (three required.) The meeting was held via Zoom due to the health of the presiding officer Ray Manning (which will be discussed later in the meeting minutes).
- III **Reading and Approval of Minutes:** Minutes of the original board meeting of January 2025 were accepted and approved by unanimous consent.
- IV **Treasurer's Report**
 - A. The treasurer's report was provided by the Chief Executive Officer in place of the Chief Financial Officer. The report indicated a balance of \$2429. Major expenses for the past year were the web SSL certificate payments and office supplies. \$900 of angel investor income was reported for the year in addition to a bank transfer award from US Bank to JP Morgan Chase bank of \$400.. Expenses for an SSL certificate and office supplies were reported. Total expenditures were \$795 for program expenses such as web hosting and SSL certificates and \$459 for office expenses.
 - B. No new memberships, membership audit responses and receipts were received since the last meeting.
- V **Unfinished Business and General Orders:**
 - A. Non-Profit Paperwork
 - (1) Paperwork required to maintain the status of the 501 (c) (3) non-profit are in the process of being filed. These include the reporting to the California Secretary of State, the California Registry of Charities, and tax returns to the California Franchise Tax Board and the United States Department of Treasury.
 - (2) Accepted by unanimous consent and filed.
 - B. Grant Applications for 2025
 - (1) None. Grants that SSTS would typically apply for, related to child abuse, domestic violence, and human trafficking, have not significantly rebounded from the Covid-19 pandemic and from social service budget cuts by the current US administration.

Restoration of budgets for projects that we would apply for are expected to be flat from the current administration's policies.

C. Personnel Issues from 2025

- (1) CEO Ray Manning, after recovering from a bicycle accident in September 2022 that required hospitalization, has been diagnosed with cancer. Ray underwent a mandibulectomy in May 2023 and radiation therapy in July and August of 2023. Ray's prognosis looks good, but the recovery from cancer removed CEO Ray Manning from much of the effort in the last two thirds of 2025. His recovery continues into 2026.
- (2) CEO Ray Manning, approaching the age of 70 and undergoing health concerns, has discussed with the board of dissolving the Social Services Technology Solutions non-profit agency or relinquishing his position as CEO. These discussions will continue through 2026 and a decision will be made.

VI **New Business:**

A. Resignation – Albert Heng, Treasurer

- (1) A letter of resignation has not been received. The board of directors agreed to start looking for a replacement treasurer and Chief Financial Officer.

B. Appointments

- (1) Except for the removal of Albert Heng, the current board of directors remained unchanged.

C. Finance & Funds Management

- (1) Present assets are around \$2429 of which about \$2429 resides in the JP Morgan Chase checking account. (We transferred our accounts from US Bank to JP Morgan Chase bank when they offered us a \$400 incentive to do so.) A minimum balance of \$2000 is required to avoid monthly service charges for the account.
 - (a) A majority of expenses for the past period were related to web hosting, web SSL certificates for the SSTS website, office supplies and some transportation to events where sales/grants were possible.

D. Authorization of Activities for 2025 Program Year

(1) Grant Writing

(a) Communications

- (i) We are in continuous contact with potential grant funders and continue to search grants.gov and local granting agencies for potential opportunities and/or partnerships. The expenses associated with these events is minimal since most members of Social Services Technology Solutions are still providing sweat equity at this time.
- (ii) Following the decision that we are an official 501(c)(3) as recognized by the Internal Revenue Service, we are beginning to write targeted grants where our tools will be beneficial. There will be (unknown) costs associated with the production and delivery of these grant proposals.

(b) Annual Meeting

- (i) The annual meeting will be an informal meeting with non-alcoholic drinks and inexpensive food provided for Board Members and any other attendees.

(2) Mission Projects

- (a) Resource Provision – discussions continue with the California Youth Council, Long Beach Human Trafficking Task Force, Fair Trade Long Beach, the City of Long Beach police department, Long Beach homeless advocates, and Long Beach City College regarding the distribution/provision of shelter and food insecurity issues.
- (b) Child Abuse Prevention and Detection – discussions continued with the Hospital Network and Inter-Agency Council on Child Abuse and Neglect. Our data entry tool and trending/prediction tool is receiving a lot of attention but we have not received any grant money at this time. This project was assumed dead in 2020 due to lack of funding, but it seems to be coming back with different principals leading the effort.
- (c) Incidental Unscheduled Project – SSTS volunteered their efforts to develop the Fair Trade Long Beach website, events calendar, and mass mailing campaign. Fair Trade Long Beach attempts to provide consumers with choices of products made with fair wages paid to employees, safe working conditions, the absence of child labor, and the absence of labor/people exploitation. Fair Trade Long Beach is happy with the SSTS efforts and have referenced us to the Long Beach Human Trafficking Task Force for their website and technology development geared towards eliminating human trafficking.
- (d) Incidental Unscheduled Project – SSTS volunteered their efforts to develop a website for the Long Beach Human Trafficking Task Force (LBHTTF). SSTS has had a presence at LBHTTF meetings for many years. The initial website was built including a searchable, geolocatable page of resources for victims of human trafficking. We have made significant progress in calendar years 2023 and 2025 and the LBHTTF is continuing to pickup on the effort in early 2026.
- (e) Incidental Unscheduled Project – SSTS developed a methodology to assist in evaluating the risk level for people exposed to trauma. This grew out of our meetings with Trauma Informed Care (TIC) experts. Our methodology uses trauma scores to evaluate the risks for future child abuse or domestic violence. We are alert to funding possibilities in this area. This effort has been on the books since late in calendar year 2022 and we are almost ready to close out the possibility of effort in early 2025.
- (f) Social Service Technology Solutions has developed a cellular automata simulation of the level of homeless people within census tracts. We developed this program from recent census data. We worked on this program at the Cerebral Beach Hackathon (hack.cerebralbeach.com) where we improved and tightened up our methodology. Unfortunately the Sponsor of the event, Kindo AI, did not have an interface or API that could talk to our Python simulation. Thus we did not win any prizes at the event.
- (g) Incidental Unscheduled Projects – additional projects will certainly “walk in the door” and we are ready to support them if they fall within our mission statement and corporation charter.

E. Budget for 2026 Program Year

- (1) There was no draft budget provided by the Treasurer or Chief Financial Officer. The Board of Directors knows that we are currently operating “on a shoestring” until some of our technology tool development work or grant applications generate operating capital.

F. Funding Strategy for 2026 Program Year

- (1) The Board of Directors is spending money judiciously to target opportunities for our technology adoption. They are not spending on frivolous activities. They must see a near-term payoff before allocating money for a project.
- (2) Social Services Technology Solutions continues to work on writing targeted grant applications in fields where we believe that we have an opportunity for success.

G. Next Board Meeting

- (1) Motion by Secretary Powers: "that the next meeting of the Board of Directors of Social Services Technology Solutions will be held at the Powers residence after school is out for the spring semesters/quarters of local schools. Final logistics to be determined".
- (2) Motion unanimously adopted.

VII **Open Forum:**

- A. The need to look for a trustworthy and mission-compatible Chief Financial Officer is critical. The Board accepted this action.

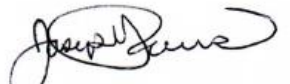

VIII **Adjournment:**

- A. There being no further business, CEO Ray Manning declared the meeting adjourned by unanimous consent.
- B. Meeting adjourned at 14:00 PM

Respectfully submitted by,

Adopted by the Board in the meeting

of 26 January 2026,
(Date of Meeting)

Joseph Powers, Secretary

(Signature of Presiding Officer)
